WHO WE ARE

Since 1995

OUR STORY

The Adaptive Sports Foundation (ASF) was founded in 1995 by Mr. Peter M. Treacy, a one-legged skier from Knowlton, Quebec. Following an accident that made him an amputee, Mr. Treacy harbored the dream of creating a ski school for children and adults living with physical disabilities. Peter set out to develop, organize, and establish educational sports programs allowing people with disabilities to discover new opportunities through winter and summer sports.

What guides us

OUR MISSION

Our mission is based on principal established by Peter Treacy: Offering educational sports programs to individuals living with limitations, encouraging them to develop new skills through outdoor sports. Additionally, sports help improve their self-esteem, motivation, and abilities while participating in activities they can share with their family and friends.

OUR STRENGTH

At the Adaptive Sports Foundation, we believe that everyone deserves to enjoy the benefits of practicing sports. That is why our adapted outdoor sports programs are supervised by experienced volunteers. Whether for beginners or more advanced athletes, our participants benefit from personalized instruction tailored to their needs. All of our volunteers receive specialized training to adequately meet each person's specific needs.

What drives us

OUR VALUES

These principles are at the heart of our mission and reflect our vision of a more inclusive and supportive future.

Fondation des Sports Adaptés | Adaptive Sports Foundation

INCLUSION

We believe that every individual deserves to be welcomed and supported, regardless of their abilities or the challenges they face.

COMMITMENT

We are fully dedicated to our mission, working with passion to have a real and positive impact on the lives of the people we support.

RESPECT

We treat every person with dignity and respect, honoring differences and valuing the uniqueness of each individual.

WORD FROM THE CHAIRMAN

The past year was a busy one for the Adaptive Sports Foundation (ASF). Our team worked tirelessly on ASF's mission of offering people with disabilities the opportunity to practice outdoor sports, summer and winter alike.

Over the last 12 months, we optimized our operations to focus on growth in the number of participant outings and volunteers in the adaptive sports and regions where ASF's impact has been the greatest. Under the leadership of the management team, ASF concentrated its resources on four main sports: adaptive alpine skiing, adaptive water skiing, adaptive mountain biking, and adaptive paddle boarding, in the Eastern Townships, Montérégie, Lanaudière, Laurentians, and Québec City regions. This more targeted approach allowed us to reduce operating, transportation and equipment costs while increasing both participant outings and volunteer hours dedicated to these four sports.

With the support of ASF's Board of Directors, the management team also implemented a three-year summer and winter expansion program. This expansion will allow us to add up to three new adaptive mountain biking sites, three new adaptive water skiing sites, two new adaptive paddle boarding sites, and three new adaptive alpine skiing sites across Québec. Already this year, Mont Avalanche has been added as an alpine skiing site, Sentiers du Moulin as a mountain biking site, and Parc Jean-Drapeau (in partnership with CIVA) and Marais aux Cerises (in partnership with the City of Magog and Vie de Plein Air) as paddle boarding sites. With the expansion program, ASF has set a goal of increasing participant outings in our activities from 1,200 to 1,500 and growing our volunteer base from 190 to 220 volunteers.

Everything we accomplish at ASF is made possible thanks to the support and generosity of our donors, volunteers, and partners. As we continue our expansion program, your support and generosity are more important than ever. On behalf of ASF's Board of Directors, I thank you for your commitment to our mission and hope you will continue to support us for many years to come.

JOHN GODBER

A MOVING COMMUNITY

Word from the

EXECUTIF DIRECTOR

WHAT A GREAT YEAR FOR THE ASF !

Over the past year, we have once again pushed our limits and surpassed the previous year's numbers with nearly 1,200 participations. These results are the fruit of the work of an entire community that deeply believes in our mission: allowing people living with limitations to get moving, discover new passions, and above all, experience unforgettable moments.

Our four main programs — adaptive alpine skiing, adaptive water skiing, adaptive mountain biking, and adaptive paddleboarding — had a remarkable year. Several other activities were added to these, notably paragolf, adaptive kayaking, horseback riding, and paranordic skiing.

Behind each of these smiles are exceptional people. Nearly 190 volunteers generously gave their time throughout the year to accompany our participants, make our activities possible, and make each of our outings a unique experience.

We are also proud to be able to count on a wonderful community of Canadian Armed Forces veterans, who are involved with the FSA both as participants and as volunteers. In 2026, 64 veterans took part in our activities, while 29 veterans gave a total of 189 volunteer days, accounting for 16% of all the volunteer work provided at the FSA on their own.

"I would like to thank everyone I had the chance to interact with over the years: participants, volunteers, donors, partners, board members, and my colleagues. These years at the Foundation have been filled with happiness, meaningful encounters, and precious memories. Today, however, I must take care of myself and my health. I wanted to leave the Foundation in good hands so that it can continue to successfully carry out its mission. I am very proud that Francis Brunelle has been appointed to take over, and I wish him much success in his new role."

BOARD OF DIRECTORS

DEPARTURE

TRANSITION YEAR

This past year marked an important transition period for the ASF board of directors. Four longtime members — Skip Eaman, Howard Davidson, Barb Cartmel, and Roger Lavergne — retired after many years of exceptional commitment and leadership.

KEITH "SKIP" EAMAN

TREASURER

As treasurer of the ASF, Skip ensured that our accounting and banking records were always accurate. A board member since 2012, Skip generously leveraged his extensive network of contacts to address the ASF's ongoing financial needs, offering support that was both practical and deeply appreciated.

HOWARD DAVIDSON

16 YEARS AS A MEMBER · 2 YEARS AS CHAIRMAN

Howard's contributions over his 16 years as a board member — including 2 years as president — were essential to preserving Peter Treacy's vision for the ASF. His leadership in fundraising was a cornerstone of the ASF's ability to operate uninterrupted for more than a decade and a half.

BARBARA CARTMEL

LONG TIME ASF VOLUNTEER

Barb was one of the ASF's most dedicated volunteers, particularly at Owl's Head. Together with her husband Bliss — and then on her own after his passing — she hosted and organized several of the ASF's most successful fundraising events. A board member since 2016, her energy, generosity, and commitment have left a lasting mark on the organization.

ROGER LAVERGNE

MAURICIE AND QUEBEC REGIONAL EXPENSION

Roger played a pivotal role in developing the ASF's regional expansion strategy in the Mauricie and Quebec City regions. His vision and guidance helped establish the foundations for the ASF's growth in these areas and provided a clear plan for future regional development.

The Adaptive Sports Foundation expresses its deep gratitude to Skip, Howard, Barb, and Roger for their years of service, their sound advice to Executive Directors Steve Charbonneau and Yan Martin, as well as for their unwavering dedication to the ASF's mission. Their contributions have strengthened the ASF in a lasting way, benefiting the organization for years to come.

WELCOME TO THE BOARD

NEW MEMBERS

FOUR ARRIVALS

Following the departure of our four board members, Marc Hébert, Nancy Spafford, Gabrielle Davidson, and Pierre Morin joined the board of directors.

MARC HÉBERT

VOLUNTEER SINCE 2014

Marc spent 12 years volunteering with ASF alongside participants and teams before joining the board of directors. Marc will ensure that our strategic directions remain grounded in the reality of our volunteers and, above all, directly benefit our wonderful community.

NANCY SPAFFORD

ENGINEER

Nancy is originally from Quebec City, where she earned a degree in civil engineering from Université Laval. She brings extensive experience in working with individuals living with intellectual disabilities and will provide the board with an important perspective on this essential community for the Foundation.

GABRIELLE DAVIDSON

FINANCE AND INVESTMENT · INVESTMENT COMMITEE PRESIDENT

Gaby is a finance and investment professional as well as an accomplished elite athlete, having won a gold medal with the Canadian women's hockey team at the 2013 FISU Winter Games in Trentino, Italy. Gaby chairs the ASF's investment committee and will support the board in strategic planning.

PIERRE MORIN

Chartered Professional Accountant

Pierre is a Chartered Professional Accountant with over 30 years of experience. He has served on the boards of directors of numerous non-profit organizations. The mission of the Adaptive Sports Foundation aligns perfectly with Pierre's values of supporting people in need and his connection to sports.

282
Participations in February, our best month ever (49 activities)

15
Ski ressort visited during the season

Once again, our adaptive alpine skiing program has been a huge success thanks to our many donors, volunteers, and partners.

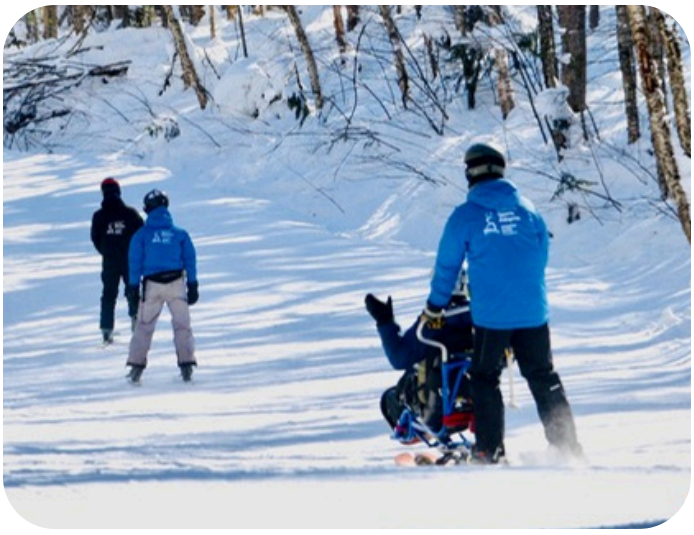

The 2026 season was marked by a 23% increase in activities offered across Quebec's ski ressorts. Thanks to this growth, we reached the symbolic milestone of 100 adaptive alpine skiing days!

Our month of February was also our largest ever recorded in the ASF history, with 282 adaptive alpine skiing participations offered across a total of 49 activities. This historic figure was achieved through the development of our new adaptive alpine skiing program in the Laurentians, made possible by the contribution of the Mirella & Lino Saputo Foundation, as well as our new program developed at Ski St-Bruno.

Once again, we reached a multitude of regions in Quebec through adaptive alpine skiing and skied at a total of 15 mountains.

THE COST OF A SEASON

YOUR DONATION MAKES A DIFFERENCE

With the cost of adaptive skiing equipment and our extensive travel across Quebec, our 518 participations during the season cost us a total of $222,331.

Thanks to your donations, we were able to offer this program at a very reasonable price for our participants. Of the $222,331 spent, only $24,972 came from our participant fees, representing approximately 11% of the total bill. Your contributions therefore serve to cover the remaining ~89%.

EYES ON OUR SUMMER

ADAPTIVE MOUNTAIN BIKING TAKES A LEAP

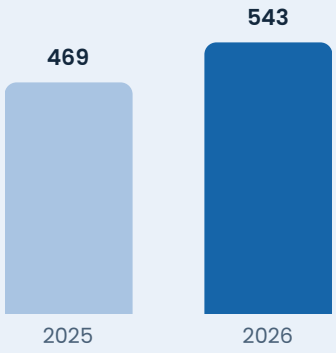

THREE MAIN PROGRAMS

SUMMER SEASON 2026

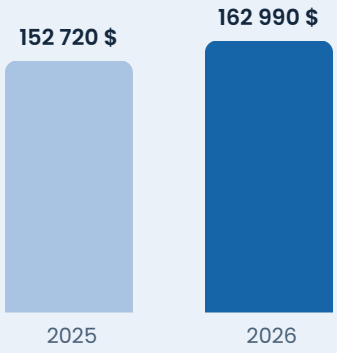

As mentioned by our Chair, the Adaptive Sports Foundation restructured its summer programs to focus on three flagship programs: adaptive waterskiing, adaptive mountain biking, and adaptive stand-up paddleboarding. Thanks to this restructuring, we achieved an overall 16% increase in participation (469 in 2025 compared to 543 in 2026), while limiting the increase in expenses to just 6.7% ($152,720 in 2025 and $162,990 in 2026).

ADAPTIVE WATERSKIING

A WAVE OF HAPPINESS

SUMMER PROGRAMS

PROGRAM

MOUNTAIN BIKE

Thanks to a new partnership with the Sentiers du Moulin trail center and the purchase of a new bike for our program at Parc des Sommets in Bromont, a remarkable increase was achieved for this program. In fact, we added 15 participations at Sentiers du Moulin (up from zero in 2025) and tripled our participations for our Bromont program (21 in 2025 and 63 in 2026).

With the growing popularity of mountain biking in Quebec and the fact that we are the only organization offering this type of program, we believe that our adaptive mountain biking program will be a cornerstone of the Adaptive Sports Foundation for years to come.

PROGRAM

PADDLEBOARD

For the 2026 season, we shifted our approach by partnering with two stand-up paddleboarding centers in order to offer more activities and reach a broader community.

With our partner CIVA, located at Parc Jean-Drapeau, our adaptive stand-up paddleboard equipment generated 36 participations across 9 different days.

For our Eastern Townships community, we collaborated with Vie de Plein Air, located at the Rivière aux Cerises in Magog. Thanks to Vie de Plein Air's adaptive paddleboard equipment and our volunteers support, we provided a total of 16 participations over 6 outings.

This collaborative approach enabled the Adaptive Sports Foundation to deliver 52 participations during the 2026 season—four times more than in 2025 (13 participations).

SUMMER PROGRAM

ADAPTIVE WATERSKIING

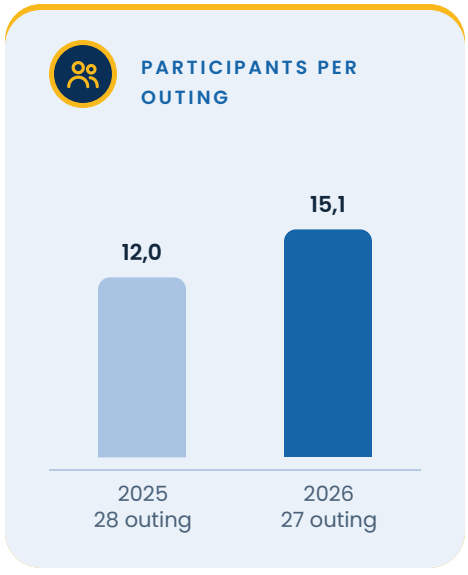

409

Since the creation of our adaptive waterskiing program, we remain the only organization providing this type of service in Quebec, and the demand continue to rise. Our primary goal for the 2026 season was to optimize the program by streamlining our travel logistics and increasing participant capacity per activity.

We are proud to announce that this goal was successfully achieved. Our optimized scheduling enabled us to reach a record of participations in a single season, with a total of 409 participations! All of this was accomplished across 27 outings during the 2026 season, which is one outing fewer than in 2025 (28 outings in 2025).

HIGHLIGHT ON THE WATER

ADAPTIVE WATERSKIING- CAMP FONDATION PAPILLON, JULY 28 2026

2026 RECOGNITION AWARDS

VOLUNTEER OF THE WINTER SEASON

PETER AND JOAN TREACY AWARD

This award highlights a volunteer's dedication to the Adaptive Sports Foundation and its adaptive alpine skiing program, which aims to make alpine skiing accessible to individuals living with disabilities. Their commitment and leadership contribute to the success and excellency of our program for our participants. Their dedication is a true source of inspiration to us all, and we are extremely grateful for it.

CO-WINNERS

LOUIS CHARTRAND & MARIE VEILLEUX

A volunteer duo involved in our adaptive alpine skiing programs across Quebec (Eastern Townships, Montérégie, Lanaudière, Quebec City).

PARTICIPANT OF THE YEAR

PRIX ROBERT B. WINSOR

This award is presented to a participants in recognition of their enthusiasm and perseverance toward adaptive sports and the community. These individuals are a true source of inspiration to their peers and to all of our volunteers.

WINNER

SOFIA FASSI FEHRI

Participant in adaptive alpine skiing and adaptive mountain biking. Volunteer in adaptive waterskiing. Based in Montreal and primarily involved in our Eastern Townships programs.

2026 RECOGNITION AWARDS

VOLUNTEER OF THE SUMMER SEASON

NEW AWARD

ALEXANDER K. PATERSON AWARD

This new award is sponsored by the law firm BLG (where Alex Paterson practiced law throughout his entire career), John and Susan Murphy, and Howard Davidson. Alex was a founding member of the board of directors and an active volunteer with the ASF. He played a decisive role in raising the funds needed for some of the ASF's earliest equipment purchases and laid the groundwork for launching the successful 2018 fundraising campaign. His lifelong volunteer commitment was widely recognized, notably through honorary degrees from Bishop's University and McGill University, as well as appointments to the Order of Canada, the National Order of Quebec, and the Order of Montreal.

This award aims to highlight a volunteer's dedication to the Adaptive Sports Foundation during our summer programming. Their commitment and leadership contribute to the success and excellency of our waterskiing, mountain biking, and paddleboarding programs. Their dedication is a true source of inspiration to us all, and we are deeply grateful.

WINNER

MARC THIBODEAU

Volunteer in adaptive alpine skiing, adaptive waterskiing, adaptive mountain biking, and adaptive paddleboarding, as well as TECH support. Based in Montreal, he is primarily involved in the Eastern Townships and Montérégie regions.

CANADIAN ARMED FORCE MEMBER OF THE YEAR

CLAUDE FLIBOTTE AWARD

Formerly known as the SWVC Award, the award has been renamed to recognize the exceptional contribution left by Mr. Claude Flibotte within the Adaptive Sports Foundation and among his fellow Canadian Armed Forces members. Passing away in 2024, this posthumous honor was suggested by our volunteers who worked alongside Mr. Flibotte during his many years of volunteering with us.

This award is presented to veterans to recognize their major contribution to the Adaptive Sports Foundation team. We are committed to highlighting the dedication of veterans who bring true added value through their leadership and who make sports accessible to individuals living with disabilities.

WINNER

MARCO MORNEAU

Canadian Armed Forces veteran. Volunteer in adaptive alpine skiing, adaptive waterskiing, and adaptive mountain biking. Based in the Quebec City region.

TESTIMONY

SOFIA

The ASF allowed me to reconnect with sports following my accident.

As soon as I started participating in alpine skiing, waterskiing, and mountain biking activities, I immediately fell in love with the atmosphere. I began coming back regularly, to the point of becoming independent in these sports—and to the point where the ASF literally became a second family to me.

Becoming a volunteer at the ASF so that others could enjoy the activities just as I had became an obvious choice for me. So, I started guiding participants and sharing my experience and knowledge. I truly feel like I'm making a difference alongside an extraordinary team, in an atmosphere that is always filled with joy.

THERE IS ALWAYS SOMETHING TO DO AT THE ASF

Sofia Fassi Fehri · Member since 2015 · Volunteer · Winner of the Robert B. Winsor Award 2026

MARC HÉBERT

TESTIMONY · BOARD MEMBER AND VOLUNTEER

"After more than 12 years on the ground alongside our participants and teams, joining the Board of Directors of the Adapted Sports Foundation is a completely natural next step for me.

Beyond what I can contribute, this involvement brings me so much on a personal level. Through our activities—whether alpine skiing in the winter or mountain biking, waterskiing, and paddleboarding in the summer, along with our Dahu races and dedicated veteran days—I am in daily contact with extraordinary people. The resilience shown in the face of challenges and the consistently positive attitude of our participants are a true life lesson.

These activities also allow me to work alongside incredible volunteers who share the same values and the same desire to give back. These enriching connections with passionate peers bring me just as much and reinforce that unique sense of community. Every moment shared on the ground is a testament to the power of pushing beyond one's limits and to the immense impact of adapted sports on individual autonomy and confidence.

Today, it is an honor to bring this rich human and hands-on perspective to the Board of Directors. My goal is to ensure that our strategic directions remain firmly rooted in the daily reality of our volunteers and, above all, serve the direct benefit of our wonderful community."

FUNDRAISING

1st EDITION · GOOOOD BIKING TEAM

DÉFI EVEREST

On July 26 2026, part of the Gooood cycling team took on an extraordinary challenge: climbing Mount Shefford on bikes, over and over, until each rider accumulated 8,848 meters of elevation gain—the equivalent of the height of Mount Everest.

Starting at 6:00 a.m. and continuing until the challenge was complete, they took on the feat and shared a day dedicated to pushing personal limits, solidarity, and the joy of riding together. Whether for a single climb, a few hours, or the entire day, every pedal stroke counted!

"We chose to support this Foundation because its vision aligns deeply with our own. We believe that sport, and cycling in particular, should be accessible to everyone. By helping democratize access to adapted sports, we are working together to build a more inclusive community where everyone can experience the benefits of physical activity."

SPECIAL THANKS TO CIRCONFLEXE AND TO THE BRUNELLE FAMILY FOUNDATION

NEW CHAPTER FOR ADATIVE MOUNTAIN BIKING IN BROMONT !

It is with great pride that we unveiled our brand-new Bowhead RX, an adapted mountain bike that enhances our fleet in Bromont! This purchase was made possible through the generous support of Circonflexe – Prêt-pour-bouger and the Brunelle Family Foundation.

This new model differs from the bikes already in our fleet. It will allow our participants to progress in their riding, take on new challenges, and enjoy an experience even better tailored to their capabilities and goals.

This wonderful achievement is also the result of an entire ecosystem of dedicated people. Thank you to our donors, our partners—including the Parc des Sommets—and our fantastic volunteers. It is thanks to your support that our adapted mountain biking offering in Bromont continues to grow, allowing more and more people living with a disability to discover the joy of riding the trails. Together, we are ensuring that the trails are accessible to all.

FUNDRAISING EVENTS

2026 EDITION

BROMONT ULTRA

For 2026, the Adaptive Sports Foundation was once again selected as one of the 21 causes supported by the Bromont Ultra through its fundraising campaign. For this edition, the runners who choose to support our cause raised a grand total of $23,277.48! This is an incredible achievement, and we extend our heartfelt thanks to all the participants, volunteers, and the Bromont Ultra organization for another successful year!

A special thank you to our teams and individual runners who raised over $500 each: Francis Brunelle, Ludovic Doyon, Marc Théberge, Juliette Guay, Justin Racine, Jacob Hamelin, Les Ergothérapides, and Les amis de la rue.

GOLF

DAN MOQUIN HOPE FOUNDATION GOLF TOURNEMENT

Once again, the golf tournament organized by the Dan Moquin Hope Foundation was a resounding success! For the 8th consecutive year, the Dan Moquin Hope Foundation helped us support the ASF mission. And for the first time in the history of the golf tournament, the total amount raised surpassed $100,000!

Thanks to Dan Moquin and his entire team for their support towards the Adaptive Sports Foundation.

2026

EVEREST ORFORD

For the 2026 event, the Orford Everest Challenge was organized by Altergo in collaboration with the Adaptive Sports Foundation. Thanks to the 200 hikers who stepped up to take on the Orford Everest Challenge, 32 individuals living with functional limitations were also able to reach the summit and admire the autumn colors from the top of Mount Orford. In total, the event met its fundraising goal of $50,000!

Thank you to everyone who participated and to our partner Altergo for organizing the event.
